

The following communication regarding the merger between American Water Works Company, Inc. (“American Water”) and Essential Utilities, Inc. (“Essential Utilities”) was sent by John Griffith, President and Chief Executive Officer of American Water, to employees of American Water via e-mail on June 1, 2026.

An update on future leadership teams

From John Griffith, President and CEO

We’ve made a great deal of progress on integration planning with Essential Utilities over the past seven months, and I wanted to share an update with employees about some milestones along the way.

As part of this work, we have now made decisions on the next level of leadership for the future combined company. This includes the direct reports to ELT members that will take effect following the closing of the merger.

These decisions are an important step in preparing the organization for Day 1 and beyond. They reflect our focus on executing a strong start and building a combined company positioned for long-term success that benefits our customers – all priorities that continue to guide our integration planning.

We will have more details on these leadership teams during a 30-minute companywide town hall on Wednesday, June 3 at 10:45am. You’ll receive a calendar notice with the link to join, and please note it will not be recorded.

It’s important to note that the changes we are announcing this week are not effective until after we close our merger with Essential. Until close, our roles, responsibilities, and reporting relationships remain the same.

This is just one of many planning items we have underway and we remain committed to providing updates as more information is finalized.

Additionally, I wanted to share that over the weekend, *The Philadelphia Inquirer* published their online Changemaker Spotlight on our upcoming merger with Essential Utilities. You can [click here](#) to read the article, focused on our shared vision for serving our customers and communities.

Thank you for your continued focus on what we do best – delivering reliable water and wastewater services each and every day. Thank you and please stay safe.
