Forward Looking Statement

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which generally include words such as “believes,” “expects,” “intends,” “anticipates,” “estimates,” and similar expressions. The Company can give no assurance that any actual or future results or events discussed in these statements will be achieved. Any forward-looking statements represent its views only as of today and should not be relied upon as representing its views as of any subsequent date. Readers are cautioned that such forward-looking statements are subject to a variety of risks and uncertainties that could cause the company’s actual results to differ materially from the statements contained in this release. Such forward-looking statements include, among others: the anticipated receipt of regulatory approvals for, and closing of, the company’s proposed merger with American Water, the company’s belief that it will comply with the finalized EPA PFAS rules, the guidance range of net income per diluted common share; the anticipated amount of infrastructure investment in 2026; the Company’s anticipated use of equity and debt financing and, that the Company has a multiyear plan to ensure that finished water does not exceed the federal maximum contaminant level for the six EPA regulated PFAS chemicals. There are important factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements including: the expected timing and likelihood of completion of our proposed Merger with American Water; changes in the EPAs regulations; changes in the United States’ governmental policies, including those from the Executive Branch; disruptions in the global economy; potential disruptions in the supply chain for raw and finished materials; the continuation of the company's growth-through-acquisition program; general economic business conditions; the company’s ability to successfully execute any equity or debt financing transactions, including on an as needed basis; housing and customer growth trends; unfavorable weather conditions; the success of certain cost-containment initiatives; changes in regulations or regulatory treatment; the company’s ability to successfully close municipally owned systems presently under agreement and successfully complete other acquisitions and dispositions; and other factors discussed in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q, which are filed with the Securities and Exchange Commission. For more information regarding risks and uncertainties associated with Essential's business, please refer to Essential's annual, quarterly, and other SEC filings. Essential is not under any obligation - and expressly disclaims any such obligation - to update or alter its forward-looking statements whether as a result of new information, future events, or otherwise.

For a discussion and reconciliation of Non-GAAP financial measures, see the Appendix to this presentation.

Reconciliation of GAAP to Non-GAAP Financial Measures

The Company is providing disclosure of the reconciliation of adjusted earnings per share, a non-GAAP financial measures referenced in this release, to the most comparable GAAP financial measure. Adjusted earnings per share does not comply with U.S. generally accepted accounting principles (GAAP), and is thus considered to be a "non-GAAP financial measures" under applicable SEC regulations.

Adjusted earnings per share is one of the primary metrics used by management to evaluate the Company's financial performance and compare it to that of its peers, evaluate the effectiveness of the Company's business strategies, and in connection with executive compensation decisions. This measure is also frequently used by analysts, investors, and others to evaluate industry peers. Further, the Company believes adjusted earnings per share is helpful in highlighting trends in the Company's results because it allows for more consistent comparisons of performance between periods by excluding gains and losses that are non-operational in nature or outside the control of management. The Company further believes that this non-GAAP financial measure is useful to investors as a more meaningful way to compare the Company's operating performance against its guidance. This non-GAAP measure does, however, have certain limitations and should not be considered as an alternative to earnings per share or any other performance.

Adjusted earnings per share adjusts for the following items:

(1) costs associated with the pending merger with American Water; and

(2) the income tax impact of the non-GAAP adjustment described above.
