PSC TO MERGE WITH PENNICHUCK CORPORATION

Local management, name and headquarters to remain the same

BRYN MAWR, PA AND NASHUA NH, APRIL 29, 2002 - PSC (NYSE: PSC), the nation's second largest investor-owned water utility holding company, and Pennichuck Corporation (NASDAQ: PNNW) the largest investor-owned water utility in New Hampshire, announced that they have entered into a definitive agreement to merge in a stock transaction which, including the assumption of \$27 million of debt, has a total enterprise value of approximately \$106 million, and represents \$33.00 per Pennichuck share based on a PSC share price of \$23.00 to \$25.00. The transaction is expected to be accretive to PSC earnings on an ongoing basis exclusive of one-time transaction costs.

The merger will create a combined company with 630,000 customer accounts serving more than two million residents in seven states (New Hampshire, Maine, Pennsylvania, New Jersey, Ohio, Illinois, and North Carolina) and increase PSC's customer base by five percent.

"PSC has a 115-year history as a water utility company," said Pennichuck President and CEO Maurice L. Arel. "Throughout that period PSC has held a firm commitment to excellence in water quality and service. Our new partnership with PSC, a company which is dedicated to water service, will allow Pennichuck to enhance the already-high quality service we currently provide to our New Hampshire communities."

"We are excited about our new partnership with Pennichuck and the opportunity to work with the people of the Granite State," said PSC Chairman Nicholas DeBenedictis. "With many investor-owned water utilities being purchased recently by foreign utilities, it is exciting to be in the position to grow domestically and soon become the largest U.S. based investor-owned water utility."

The merger is expected to close before the end of the year. The transaction represents a premium for Pennichuck shareholders of over 20 percent based on the closing prices of Pennichuck and PSC common stock on Friday. The result of the transaction maintains substantially the same dividend rate and the added benefit of greater liquidity for Pennichuck shareholders.

Pennichuck Water, which serves approximately 30,000 customers in 23 communities throughout southern New Hampshire, will retain its name and continue to be run by local management and based in Nashua.

"The primary reason for Pennichuck's success over its 150 years of service to the people of New Hampshire is its investment of capital in sophisticated water treatment systems and the hard work and dedication of its employees," said Arel. "There will be little change to this successful formula; only the additional technical and research and development resources of a larger company, and the provision of needed financial resources for future growth."

Arel will become a director of PSC upon closing of the merger. He intends to retire from Pennichuck as of the end of this year. Arel's replacement as the new CEO of Pennichuck is expected to be chosen from the company's local executive management team.

PSC is currently the second largest, investor owned water utility in the

country, serving approximately two million residents in six states including Pennsylvania, Ohio, Illinois, New Jersey, North Carolina and Maine.

This press release contains forward-looking statements. These forward-looking statements are found in various places throughout this press release and include, without limitation, statements regarding the expected timing and benefits of the acquisition, including the amount and type of consideration to be received by Pennichuck Corporation shareholders as well as the tax consequences of the transaction. While these forward-looking statements represent our judgments and future expectations concerning the development of our business and the timing and benefits of the acquisition, a number of risks, uncertainties, and other important factors could cause actual developments and results to differ materially from our expectations. These factors include, but are not limited to, the failure of the PNNW shareholders to approve the transaction; the reaction of the public markets to the transaction; the risk that PNNW's business will not be successfully integrated into PSC; the costs related to the transaction; the inability to obtain or meet conditions imposed for governmental approvals for the transaction; the risk that anticipated benefits will not be obtained or not obtained within the time anticipated; and other key factors that we have indicated could adversely affect our business and financial performance contained in our past and future filings and reports, including those filed with the Securities and Exchange Commission. Neither PSC nor PNNW is under any obligation (and each expressly disclaims any such obligation) to update or alter its forward-looking statements whether as a result of new information, future events, or otherwise
