Stated Amount:

Each Unit has a stated amount of \$50.00.

Composition of Units:

Each Unit is comprised of two parts:

- a prepaid stock purchase contract issued by Issuer (a “**Purchase Contract**”); and
- a senior amortizing note issued by Issuer (an “**Amortizing Note**”), which has an initial principal amount of \$8.62909 per Amortizing Note, bears interest at a rate of 3.00% per annum and has a final installment payment date of April 30, 2022.

Fair Market Value of the Units:	Issuer has determined that the fair market value of each Purchase Contract is \$41.37091 and the fair market value of each Amortizing Note is \$8.62909.
Reference Price:	\$50.00 <i>divided by</i> the then applicable Maximum Settlement Rate (as defined below) (the “ Reference Price ”), which is initially approximately equal to the Common Stock Public Offering Price per share in the concurrent Common Stock Offering described above.
Threshold Appreciation Price:	\$50.00 <i>divided by</i> the then applicable Minimum Settlement Rate (as defined below) (the “ Threshold Appreciation Price ”), which is initially approximately \$42.41 and represents a premium of approximately 22.5% over the Reference Price.
Minimum Settlement Rate:	1.1790 shares of Common Stock per Purchase Contract, subject to adjustment as described in the Units Preliminary Prospectus Supplement (the “ Minimum Settlement Rate ”).
Maximum Settlement Rate:	1.4442 shares of Common Stock per Purchase Contract, subject to adjustment as described in the Units Preliminary Prospectus Supplement (the “ Maximum Settlement Rate ”).

Applicable Market Value of Common Stock	Settlement Rate	Value of Common Stock Delivered (Based on the Applicable Market Value Thereof)

Greater than the Threshold Appreciation Price	The Minimum Settlement Rate	Greater than \$50.00

The exact stock price and effective date may not be set forth in the table above, in which case:

- if the applicable stock price is between two stock prices in the table or the applicable effective date is between two effective dates in the table, the fundamental change early settlement rate will be determined by straight line interpolation between the fundamental change early settlement rates set forth for the higher and lower stock prices and the earlier and later effective dates, as applicable, based on a 365- or 366-day year, as applicable;
- if the applicable stock price is greater than \$100.00 per share (subject to adjustment in the same manner and at the same time as the stock prices set forth in the column headings of the table above), then the fundamental change early settlement rate will be the Minimum Settlement Rate; or
- if the applicable stock price is less than \$10.00 per share (subject to adjustment in the same manner and at the same time as the stock prices set forth in the column headings of the table above, the “**Minimum Stock Price**”), the fundamental change early settlement rate will be determined as if the stock price equaled the Minimum Stock Price, and using straight line interpolation, as described in the first bullet of this paragraph, if the effective date is between two effective dates in the table.

The maximum number of shares of Common Stock deliverable under a Purchase Contract is 1.4442, subject to adjustment in the same manner and at the same time as the fixed settlement rates as set forth under “Description of the Purchase Contracts—Adjustments to the Fixed Settlement Rates” in the Units Preliminary Prospectus Supplement.

Early Mandatory Settlement at Issuer's Election:

Issuer has the right to settle the Purchase Contracts on or after January 30, 2020, in whole but not in part, on a date fixed by Issuer as described in the Units Preliminary Prospectus Supplement at the "early mandatory settlement rate," which will be the Maximum Settlement Rate as of the notice date (as defined in the Units Preliminary Prospectus Supplement), unless the closing price (as defined in the Units Preliminary Prospectus Supplement) of Issuer's Common Stock for at least 20 trading days (as defined in the Units Preliminary Prospectus Supplement) (whether or not consecutive), including the trading day immediately preceding the notice date in a period of 30 consecutive trading days ending on, and including, the trading day immediately preceding the notice date exceeds 130% of the Threshold Appreciation Price in effect on each such trading day, in which case the "early mandatory settlement rate" will be the Minimum Settlement Rate as of the notice date.

Acquisition Termination Redemption:

If the closing of the Acquisition has not occurred on or prior to April 22, 2020, or if, prior to such date, the Purchase Agreement is terminated, the Issuer may elect to redeem all, but not less than all, of the outstanding Purchase Contracts, for the applicable redemption amount, as described under "Description of the Purchase Contracts—Acquisition Termination Redemption" in the Units Preliminary Prospectus Supplement, by delivering notice during the five business day period immediately following the earlier of (x) April 22, 2020 if the closing of the Acquisition has not occurred on or prior to such date and (y) the date on which the Purchase Agreement is terminated.

"Redemption amount" per Purchase Contract means:

- if the acquisition termination stock price (as defined in the Units Preliminary Prospectus Supplement) is equal to or less than the Reference Price, an amount of cash equal to (x) \$50.00 less (y) the applicable repurchase price for the Amortizing Notes; or

· if the acquisition termination stock price is greater than the Reference Price, a number of shares of the Common Stock (the “acquisition redemption rate”) equal to the number of shares of Common Stock determined by reference to the table set forth above in “—Early Settlement Upon a Fundamental Change” (with references to “stock price” deemed to refer to the “acquisition termination stock price,” references to “fundamental change early settlement rate” deemed to refer to the “acquisition redemption rate,” and references to “effective date” deemed to refer to the date of the related acquisition termination redemption notice); *provided* that the Issuer may elect to pay cash in lieu of delivering any or all of the shares of Common Stock in an amount equal to such number of shares *multiplied* by the redemption market value; *provided further* that, if the Issuer so elects to pay cash, the Issuer will specify in the acquisition redemption notice (as defined in the Units Preliminary Prospectus Supplement) the number of shares of Common Stock that will be replaced with cash.

Initial Principal Amount of Amortizing Notes:

\$8.62909 per Amortizing Note.
\$103,549,080 in aggregate (or \$119,081,442 in the aggregate if the underwriters of the Units Offering exercise their over-allotment option to purchase additional Units in full).

Installment Payment Dates:

Each January 30, April 30, July 30 and October 30, commencing on July 30, 2019, with a final installment payment date of April 30, 2022.

Payments on the Amortizing Notes:

The Amortizing Notes will pay holders equal quarterly cash installments of \$0.75000 per Amortizing Note (except for the July 30, 2019 installment payment, which will be \$0.80833 per Amortizing Note), which cash payment in the aggregate will be equivalent to 6.00% per annum with respect to each \$50.00 Stated Amount of Units. Each installment will constitute a payment of interest (at a rate of 3.00% per annum) and a partial repayment of principal on the Amortizing Note, allocated as set forth in the following amortization schedule:

Scheduled Installment Payment Date	Amount of Principal	Amount of Interest
July 30, 2019	\$ 0.73858	\$ 0.06975

Repurchase of Amortizing Notes at the Option of the Holder:

If Issuer elects to settle the Purchase Contracts early or in the event of an acquisition termination redemption (as defined in the Units Preliminary Prospectus Supplement), holders of Amortizing Notes (whether as holders of Units or separate Amortizing Notes) will have the right to require Issuer to repurchase some or all of their Amortizing Notes for cash at a repurchase price per Amortizing Note equal to the principal amount of such Amortizing Note as of the repurchase date (as defined in the Units Preliminary Prospectus Supplement), plus accrued and unpaid interest on such principal amount from, and including, the immediately preceding Installment Payment Date to, but not including, the repurchase date, calculated at a rate of 3.00% per annum.
